

## Constructing Support

### Self Assessment

Checklist for student self-assessment for Constructing Support (Grades K-2)

**Constructing support is the process of providing support for statements.**

A. *I notice something and then make a statement about it that needs to be supported with more information.*

\_\_\_\_\_ Yes. I notice something and then make a statement about it that needs to be supported with more information.

\_\_\_\_\_ No. I notice something, but I do very little to try to make a statement about it that needs to be supported with more information.

B. *I give information and examples to support my statement.*

\_\_\_\_\_ Yes. I give information and examples to support my statement.

\_\_\_\_\_ No. I do very little to give information and examples to support my statement.

C. *I give information that explains my statement or that explains when my statement does not apply.*

\_\_\_\_\_ Yes. I give information that explains my statement or that explains when my statement does not apply.

\_\_\_\_\_ No. I do very little to give information that explains my statement or that explains when my statement does not apply.
